PROFILE

Computer Science graduate and Python developer with 2+ years of professional full-stack development experience building and customizing enterprise business modules (HRMS, Sales, Inventory, Accounting, Manufacturing, Point of Sale) on the Odoo ERP framework (v14–v19), including models, XML views, QWeb reports, security rules, and automated workflows. Strong programming foundation in Python OOP, REST APIs, SQL (PostgreSQL, MySQL), and Git/GitHub. Alongside this professional experience, building skills in Machine Learning and Artificial Intelligence — Scikit-learn, TensorFlow, PyTorch, Pandas, NumPy, and Matplotlib for ML/DL model development, and n8n for AI-driven workflow automation.

WORK EXPERIENCE

Junior Software Engineer – Odoo Developer

APRIL 2026 – JUNE 2026

Numdesk

- Customized HRMS modules including Employees, Attendance, Payroll, and Leave Management; implemented time-off logic, approval flows, and automated leave accrual policies.
- Built and customized Sales, Purchase, Accounting, and Manufacturing modules on Odoo v14, v18, and v19, including a custom module built from scratch with REST API integration.
- Designed and generated QWeb barcode reports for product/inventory tracking, and Sale, Purchase, and Manufacturing reports in QWeb and Excel.

Associate Software Engineer – Odoo Developer

OCT 2024 – MAR 2026

Trionex Private Limited

- Learned Odoo v16–v19 architecture and development lifecycle, then delivered end-to-end customizations across Sales, Purchase, Inventory, Accounting, Time Off, Manufacturing, and Point of Sale for multiple clients.
- Developed models, XML views (form, tree, list), menus, actions, security/access rules, and automated workflows; implemented Many2one, One2many, and Many2many relational fields and REST API integrations.
- Created QWeb PDF/Excel reports, wizards, server actions, and scheduled jobs; optimized ORM queries and batch processes for performance.
- Used Git/GitHub for version control and collaboration; performed functional testing, debugging, code reviews, and documentation.

Python Developer Intern

JUN 2024 – SEP 2024

Trionex Private Limited

- Built a strong foundation in OOP (classes, instances, encapsulation) and file handling for CSV, text, and JSON data.
- Used NumPy and Pandas for data manipulation and analysis; collaborated with senior engineers and incorporated feedback to improve code quality.

TECHNICAL SKILLS

Machine Learning & AI: Python, Artificial Intelligence (AI), Scikit-learn, TensorFlow, PyTorch, Pandas, NumPy, Matplotlib, n8n (Workflow Automation)

Languages & Frameworks: Python, C++, JavaScript, XML, HTML, SQL, Django

Databases: PostgreSQL, MySQL

Odoo Development (ERP): Odoo (v14–v19), QWeb Reports, Odoo ORM, Views Customization, Security Rules

Version Control & Tools: Git, GitHub, REST APIs, AWS, Data Structures & Algorithms (DSA)

PERSONAL PROJECTS

House Price Prediction — Machine Learning – Python, Scikit-learn, Pandas, NumPy, Matplotlib

- Trained and compared Linear Regression and Random Forest models to predict house prices from property features (square footage, location, age, etc.); best model (Linear Regression) reached 0.949 R-squared.
- Identified square footage and neighborhood quality as the strongest price predictors via Random Forest feature importance analysis.

GitHub: github.com/mougheeskhalid/house-price-prediction

Python Voice Assistant – Python

- Built a modular voice assistant with intent/command routing, a plugin architecture, speech recognition, file management, system control, media playback, and web search.

GitHub: github.com/mougheeskhalid/python-voice-assistant

HRMS Leave Portal – Django, Python

- Built a full-stack leave management portal with employee login, leave request submission, multi-level approval workflows, and automated leave balance/accrual tracking.

E-Commerce Websites – Django, Python

- Built three independent full-stack e-commerce sites, each with a product catalog, search/filtering, shopping cart, checkout, order management, and an admin panel.

Source code for all personal projects is available on GitHub: github.com/mougheeskhalid

EDUCATION & CERTIFICATIONS

Bachelor of Computer Science

2022 – 2026

University of Lahore

Certifications: Odoo 19 – Functional Certification **Languages:** English, Urdu
